

College Readiness Support Services

Training, Professional Development, and Ongoing Support

The UWorld Implementation team partners with administrators and instructional leaders to ensure that training and support plans meet the needs of districts and schools. Through various stages of support, we ensure all stakeholders are prepared to implement and sustain instructional programs.

Our Services Are:

- ✓ Customizable based on unique school and district needs
- ✓ Proven to increase the effectiveness of instruction
- ✓ Based on ongoing review of usage and performance data
- ✓ Delivered by experienced training and support specialists

Training Options:

In-Person

Provided to administrators and teachers with an emphasis on how to use UWorld learning tools effectively to support instruction and how to use data to make informed decisions.

(1–3 hours per session)

Training of Trainers (TOT)

Provided to instructional leaders who are responsible for training and supporting staff using UWorld's learning tools in their home district.

(3+ hours per session)

Virtual Sessions

Allows for flexible initial and advanced training or ongoing support options.

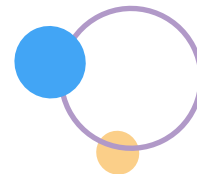

(1 hour per session)

Video Tutorials

Complimentary video tutorials cover a range of topics, including content, implementation, assessments, and reporting.

(on-demand)

Implementation Phases

Phase	General Description
 Start Up: Implementation Planning	<ul style="list-style-type: none">• Leadership meetings with key stakeholders• District-specific implementation plan and expectations• Specific training plan with dates, locations, participants, and times• Technology review and integration plan
 Start Up: Launch Training	<ul style="list-style-type: none">• Orientation for district and/or school leaders prior to training• In-person or virtual training for administrators and/or teachers• Follow-up training materials posted to accounts in various modalities
 Start Up: Implementation Support	<ul style="list-style-type: none">• Departmental meetings to determine and launch additional initiatives• Regular review of implementation plan, usage, and early targets• Initial reports of faculty and student participation
 Ongoing: Implementation Support	<ul style="list-style-type: none">• Regular meetings to review implementation plan, data, and reporting• Distribution of implementation status, issues, and next steps• Phone and e-mail support (8:00 AM–5:00 PM CT)• Ongoing webinars for participating administrators and faculty
 Ongoing: Implementation Reporting	<ul style="list-style-type: none">• District-level updates of implementation plan initiatives, data, and reporting• District-level summary of activity, successes, and issues• Campus, teacher, and class-level activity reports• Online reports of usage, frequency, performance, and assessment data

“

As an educator, I have found UWorld to be of the highest quality. The content is comprehensive, engaging, and effective, and it has been an asset to my high school classes. However, what really sets UWorld apart is the outstanding customer service provided. They have a deep understanding of the program and are always eager to help users like myself, going above and beyond to ensure that we are satisfied with the product.”

—Daa'iyah Na'im, Ed.S., Teacher, Rosa Fort HS, Tunica, MS

Professional Development Options

Option

Description

Using Explanations to Further Learning

AP® Courses

(1 Hour)

The best part of UWorld questions lies in our answer explanations. This immediate, explanatory feedback contains mini-lessons with in-depth visuals and vocabulary support, as well as a thorough analysis of answer choices. Educators will learn how to utilize these explanations to their fullest to maximize student understanding and create student-focused activities.

Outcomes:

Create a lesson on how to teach explanations to students and a ready-to-use activity.

Flipping the AP Classroom

AP Courses

(2 Hours)

Flipping a classroom effectively creates student-centered learning and utilizes class time for deeper understanding. Educators will be exposed to strategies that they can modify for their own AP classrooms. From utilizing polls to pre-built assignments and assessments, educators can create a rigorous, high-energy classroom that is focused on student-centered exploration and collaboration.

Outcomes:

1–3 lesson plans utilizing the flipped classroom model

Gamifying Multiple-Choice

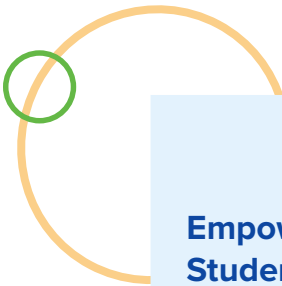

AP Courses

(2 Hours)

Everyone loves games! These experiences are a great way to create engagement while students work through content that they would otherwise find laborious. Educators will play a series of games that take UWorld assignments and present them to learners in a fun and interactive way. Everything from assessment review games to check-for-understanding and demonstration of knowledge games can be found here.

Outcomes:

Instructions/game rules and general elements to use in class

Empowering Students with Data

AP Courses

(1 Hour)

Educators know the power that data-driven instruction can have on learner success. Putting data in the hands of students amplifies growth as it creates ownership and metacognition. In this session, educators will learn what data is presented through the UWorld platform, including Unit Tests, and how to best use it in their classroom.

Outcomes:

Framework for how to conduct data conversations;
growth tracker/rubric

Optimizing FRQ Practice

AP Courses

(3 Hours)

Writing is a critical skill for student success in AP courses and on the AP exam. It can be difficult for educators to know how to properly grade and give targeted, immediate feedback that helps learners grow as writers. Using UWorld's custom-made FRQs and scoring guidelines, educators will calibrate properly for FRQ administration and scoring and learn best practices and strategies for implementing writing in their classroom.

Outcomes:

Calibration techniques/activities; writing strategies and activity exemplars

Preparing for the AP Exam All Year: For New Teachers

AP Courses

(1 Hour)

AP courses are notorious for copious amounts of content that has to be covered in-depth in a limited time frame. This training showcases strategies that prepare teachers to both teach essential content and prepare students for the exam the entire year, as well as in the weeks and months leading up to exam time.

Outcomes:

Backwards planning design overview and aligned lessons

ACT and/or SAT Crash Course

ACT®/SAT®

(1 Hour)

UWorld offers an impressive online library of materials to help students perform their best on these college readiness exams. However; just providing the materials to students isn't enough to see the desired growth and mastery. We will start by educating teachers on what the elements and standards of the ACT and/or SAT are. We will collaborate with administrators and teachers to create best practices for implementing these materials in their classrooms and campus-wide systems.

Outcomes:

School-wide plan for incentivization and 1–3 activities to plug into a lesson plan

Professional Development Pricing

Pricing is based on customizable packages and may vary depending on unique needs. Below are examples of pricing models. Please contact your sales representative to create a personalized plan that fits your goals.

Face-to-Face Training and Support

1 Day	\$2,500 per trainer/per day
2 Consecutive Days	\$2,000 per trainer/per day
3–5 Consecutive Days	\$1,500 per trainer/per day
